# TRAXOSHINE

**2022 NEW ARRIVAL!**

## INNOVATIVE PADS

**TRAXOSHINE** are special and unique diamond floor pads designed in LMA Machine laboratory with an **innovative formula** which allows to **mirror polishing** marble, granite, concrete, terrazzo and natural stones surfaces **without the use of polishing powders** in just 3 steps!

Available TRAXOSHINE: 1,2,3,LUX for:

**Marble**

**Granite**

**Concrete**

**Terrazzo**

**Natural stones**

## NO POLISHING POWDERS

Thanks to its **new formula**, TRAXOSHINE LUX does not need to be used with polishing powder.

Just water and the shininess is guaranteed!

## INNOVATIVE FORMULA

LMA laboratories believes in **productive research** of new products and formulas that are always avant-garde preserving the "made in Italy" warranty.

TRAXOSHINE are designed with a **flexible and resistant** support for quickly grinding and polishing the surface, leaving a homogeneous finish.

## TRAXOSHINE: 1,2,3,LUX...

100% guaranteed shininess saving 4 steps!

### TRAXOSHINE 1:

Functional for removing scratches left in time and for removing cement sealant; TRAXOSHINE 1 are not to be confused or replaced with the metallic grain 2 which has a superior efficiency in case of removal of marks or sealant/mastic epoxy.

AFTER TRAXOSHINE 1

### TRAXOSHINE 2:

ideal for removing small scratches. It leaves a particular semi-gloss floor (for the restoration of the shininess you can start straight from step n.2).

AFTER TRAXOSHINE 2

### TRAXOSHINE 3:

it mechanically closes the floor and leaves a high level of mechanic shininess avoiding the use of 2 discs.

AFTER TRAXOSHINE 3

### TRAXOSHINE LUX:

for marbles and terrazzo only, designed for places or construction sites where polishing powder is forbidden or difficult to use. No smells, easy to use, not bulky and easy to work avoiding the use of 2 discs.

AFTER TRAXOSHINE LUX
