

MAXI MONSTER

GRINDING MACHINES FOR ALL SURFACES TREATMENT

LMA
THE FUTURE OF GRINDING

WHY CHOOSE MAXIMONSTER?

Industrial planetary grinding machine dedicated to professional sanders for the treatment of **medium and large surfaces in civil and industrial environments.**

Available **single phase 220V** or **three-phase 380V** with variable speed with the possibility of exchanging the fixed handle with a rotating handle.

- ✔ Gear Plate with 3 tool-holders Ø200mm AP
- ✔ Working width Ø460mm
- ✔ Kit handle fix or mobile
- ✔ Foldable, space-saving and easy storage
- ✔ Quick release kit
- ✔ Solid structure with increased wheels from Ø250mm and a total weight of 199kg
- ✔ Primary weights from 6,3kg and secondary from 5,7kg
- ✔ Working direction: ahead-behind-right-left

Maximonster allows the operator to carry out preparation work of supports, removal of resins, finishing, grinding and polishing of marble, terrazzo, granite and concrete.

FEATURES:

- ✓ N.3 tool holders Ø200mm AP
- ✓ Large tank with operator adjustment for water leakage during water passages
- ✓ Emergency button for a safe interruption of the machine
- ✓ Chassis tilting system for convenient tool changing
- ✓ Drop-design adjustable metallic splash guard to allowing grinding powders to flow back, eliminating clogs and ensuring a smooth workflow
- ✓ Practical push-buttons for adjusting the handle
- ✓ Available in the single-phase 220V version or three-phase 380V version
